INDEPENDENT AUDITOR’S REPORT

Board of Supervisors
Dodge Soil and Water Conservation District
Dodge Center, Minnesota

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and the general fund of Dodge Soil and Water Conservation District, Dodge Center, Minnesota, as of and for the year ended December 31, 2013 and the related notes to the financial statements, which collectively comprise the District’s basic financial statements as listed in the table of contents.

Management’s Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.
Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the general fund of the Dodge Soil and Water Conservation District, Dodge Center, Minnesota as of December 31, 2013, and the respective changes in financial position, and the respective budgetary comparison for the general fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3–5 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated September 25, 2014, on our consideration of the Dodge Soil and Water Conservation District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering Dodge Soil and Water Conservation District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS
DODGE SOIL AND WATER CONSERVATION DISTRICT
DECEMBER 31, 2013

The Dodge Soil and Water Conservation District’s discussion and analysis provides an overview of the District’s financial activities for the fiscal year ended December 31, 2013. Since this information is designed to focus on the current year’s activities, resulting changes, and currently known facts, it should be read in conjunction with the financial statements.

USING THIS ANNUAL REPORT

This annual report consists of three parts: management’s discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include a series of financial statements. The Statement of Net Position and the Statement of Activities provide information about the activities of the District as a whole and present a longer-term view of the District’s finances. For governmental activities, financial statements tell how services were financed in the short term as well as what remains for future spending. Fund financial statements also report the District’s operations in more detail than the government-wide statements by providing information about the District’s most significant funds. Since Districts are single-purpose, special-purpose government units, the District combines the government-wide and fund financial statements into a single presentation.

The Statement of Net Position and the Statement of Activities

One of the most important questions asked about the District’s finances is, “Is the District as a whole better or worse off as a result of the year’s activities?” The Statement of Net Position and the Statement of Activities report information about the District as a whole and about its activities in a way that helps answer this question. These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year’s revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the District’s net position and changes in them. You can think of the District’s net position — the difference between assets and liabilities — as one way to measure the District’s financial health, or financial position. Over time, increases or decreases in the District’s net position are one indicator of whether its financial health is improving or deteriorating. You will need to consider other non-financial factors, however, such as changes in the state and local governmental funding, to assess the overall health of the District.

In the Statement of Net Position and the Statement of Activities, the District presents governmental activities. All of the District’s basic services are reported here. Appropriations from the county and state finance most activities.

Reporting the District’s General Fund

The fund financial statements provide detailed information about the general fund—not the District as a whole. The District presents only a general fund, which is a governmental fund. All of the District’s basic services are reported in the general fund, which focuses on how money
flows into and out of the fund and the balances left at year-end that are available for spending. The fund is reported using an accounting method called modified accrual accounting. This method measures cash and all other financial assets that can be readily converted to cash. The general fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. We describe the relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in a reconciliation included with the financial statements.

THE DISTRICT AS A WHOLE

Our analysis below focuses on the net position (Table 1) and change in net position (Table 2) of the District's governmental activities.

Table 1
Net Position:

<table>
<thead>
<tr>
<th>Governmental Activities</th>
<th>2013</th>
<th>2012</th>
</tr>
</thead>
<tbody>
<tr>
<td>Current Assets</td>
<td>$204,955</td>
<td>$182,145</td>

| Increase (decrease) in Net Position | $ 20,241 | $ 20,044 |

**Governmental Activities**

Revenues increased by 25 percent or $50,586, while total expenses increased by 28 percent or $50,389. The net position for governmental activities increased $20,241 in 2013 to $150,481. This increase in net position was comparable to the 2012 increase of $20,044.

**THE DISTRICT’S FUNDS**

As the District completed the year, its general fund as presented in the balance sheet reported a combined fund balance of $160,542, which is above last year’s total of $146,970.

**CAPITAL ASSETS & LONG-TERM LIABILITIES**

**Capital Assets**
At the end of 2013, the District had no assets to be depreciated.

**Long-Term Liabilities**
At the end of 2013, the District had $10,061 in accrued compensated absences. This compares to $16,730 in 2012.

**CONTACTING THE DISTRICT’S FINANCIAL MANAGEMENT**

This financial report is designed to provide our citizens, customers and creditors with a general overview of the District’s finances and to show the District’s accountability for the money it receives. If you have questions about this report or need additional financial information, contact the District’s technician, Tom Johnston with Dodge Soil and Water Conservation District at 916 2nd Street SE, Dodge Center, MN 55927. The phone number is 507-374-6364 extension 400.

Notes are an integral part of the basic financial statements.
Note 1 - Summary of Significant Accounting Policies

The financial reporting policies of the Dodge Soil and Water Conservation District conform to generally accepted accounting principles. The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (statements and interpretations).

Financial Reporting Entity
The Dodge Soil and Water Conservation District is organized under the provisions of Minnesota Statutes Chapter 103C. The District is governed by a Board of Supervisors composed of five members nominated by voters of the District and elected to four-year terms by the voters of the County.

The purpose of the District is to assist land occupiers in applying practices for the conservation of soil and water resources. These practices are intended to control wind and water erosion, pollution of lakes and streams, and damage to wetlands and wildlife habitats.

The Dodge Soil and Water Conservation District, in cooperation with the U.S. Department of Agriculture Natural Resources Conservation Service and other agencies, provides technical and financial assistance to individuals, groups, organizations, and governments in reducing costly waste of soil and water resulting from soil erosion, sedimentation, pollution and improper land use.

Each fiscal year the District develops a work plan which is used as a guide in using resources effectively to provide maximum conservation of all lands within its boundaries. The work plan includes guidelines for employees and technicians to follow in order to achieve the District’s objectives.

The District is not considered a part of Dodge County because, even though the County provides a significant amount of the District’s revenues in the form of an appropriation, it does not retain any control over the operations of the District.

Generally accepted accounting principles require that the financial reporting entity include the primary government and component units for which the primary government is financially accountable. Under these principles the District does not have any component units.

Government-Wide Financial Statements
The government-wide financial statements (i.e. The Statement of Net Position and The Statement of Activities) report information on all of the nonfiduciary activities of the District.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segments are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of cash flows. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.
Fund Financial Statements
The government reports the General Fund as its only major governmental fund. The
general fund accounts for all financial resources of the government.

Governmental fund financial statements are reported using the current financial resources
measurement focus and the modified accrual basis of accounting. Revenues are recognized
as soon as they are both measurable and available. Revenues are considered to be
available when they are collectible within the current period or soon enough thereafter to
pay liabilities of the current period. For this purpose, the District considers all revenues,
except reimbursement grants, to be available if they are collected within 60 days of the end
of the current fiscal period.

Reimbursement grants are considered available if they are collected within one year of the
end of the current fiscal period. Expenditures are recorded when a liability is incurred under
accrual accounting.

Intergovernmental revenues are reported in conformity with the legal and contractual
requirements of the individual programs. Generally, grant revenues are recognized when
the corresponding expenditures are incurred. The District also receives an annual
appropriation from the County, which is recognized as revenue when received, unless it is
received prior to the period to which it applies. In that case, revenue recognition is then
defferred until the appropriate period.

Investment earnings and revenue from sale of trees are recognized when earned.
Agricultural conservation fees and other revenues are recognized when they are received in
cash because they usually are not measurable until then.

Project expenditures represent costs that are funded from federal, state, or district revenues.
State project expenditures consist of grants to participants of the Cost-Share Program and
other state programs. District project expenditures are costs of materials and supplies in
District projects.

In accordance with Governmental Accounting Standards Board Statement No. 33,
Accounting and Financial Reporting for Nonexchange Transactions, revenues for
nonexchange transactions are recognized based on the principal characteristics of the
revenue. Exchange transactions are recognized as revenue when the exchange occurs.

Budget Information
The District adopts an estimated revenue and expenditure budget for the general fund.
Comparisons of estimated revenues and budgeted expenditures to actual are presented in
the financial statements in accordance with generally accepted accounting principles.
Amendments to the original budget require board approval. Appropriations lapse at year-
end. The District does not use encumbrance accounting.

Use of Estimates
The preparation of financial statements in conformity with generally accepted accounting
principles requires management to make estimates and assumptions that affect the reported
amounts of assets and liabilities and disclosure of contingent assets and liabilities at the
date of the financial statements and reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

Assets, Liabilities and Net Position

The District adopted Governmental Accounting Standards Board (GASB) Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position* in 2012. Under the new standards, financial statements will include deferred outflows of resources and deferred inflows of resources ("deferrals"), in addition to assets and liabilities, and will report *net position* instead of net assets.

**Assets**
Investments are stated at fair value, except for non-negotiable certificates of deposit, which are on a cost basis, and short-term money market investments, which are stated at amortized cost.

Capital assets are reported on a net (depreciated) basis. General capital assets are valued at historical or estimated historical cost.

**Liabilities**
Long-term liabilities, such as compensated absences, are accounted for as an adjustment to net position.

**Classification of Net Position**
Net position in the government-wide financial statements are classified in the following categories:

Investment in capital assets – the amount of net position representing capital assets net of accumulated depreciation.

Restricted net position – the amount of net position for which external restrictions have been imposed by creditors, grantors, contributors, or laws or regulations of other governments and restrictions imposed by law through constitutional provisions or enabling legislation.

Unrestricted net position – the amount of net position that does not meet the definition of restricted or investment in capital assets.

**Classification of Fund Balances**

The District follows Governmental Accounting Standards Board (GASB) Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definition*.

Fund balance is divided into five classifications based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

**Nonspendable** – the nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or legally or contractually
required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash.

**Restricted** – fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or is imposed by law through constitutional provisions or enabling legislation.

**Committed** – the committed fund balance classification includes amounts that can be used only for the specific purposes imposed by formal action (resolution) of the District Board. Those committed amounts cannot be used for any other purpose unless the Board removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts.

**Assigned** – amounts in the assigned fund balance classification the District intends to use for specific purposes that do not meet the criteria to be classified as restricted or committed. In the General Fund, assigned amounts represent intended uses established by the Board or the District Administrator who has been delegated that authority by Board resolution.

**Unassigned** – Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other fund balance classifications.

The District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

**Explanation of Adjustments Column in Statements**

**Capital Assets:** In the Statement of Net Position and Governmental Fund Balance Sheet, an adjustment is made if the District has capital assets. This adjustment equals the net book balance of capitalized assets as of the report date, and reconciles to the amount reported in the Capital Assets Note.

**Long-Term Liabilities:** In the Statement of Net Position and Governmental Fund Balance Sheet, an adjustment is made to reflect the total Compensated Absence Liability the District has as of the report date. See note on Long-Term Liabilities.

**Depreciation and Change in Compensated Absences for the year:** In the Statement of Activities and Governmental Fund Revenues, Expenditures and Changes in Fund Balance, the adjustment equals the total depreciation for the year reported, plus or minus the change in Compensated Absences between the reporting year and the previous year. This number is supported by figures in the note on Long-Term Liabilities.
Vacation and Sick Leave
Under the District's personnel policies, employees are granted vacation leave in varying amounts based on their length of service. Vacation leave accrual varies from 8 to 20 hours per month. Sick leave accrual is 12 days per year. The limit on the accumulation of vacation leave is 240 hours. There is no limit on the accumulation of sick leave. Upon termination of employment from the District, employees are paid accrued vacation leave and up to 180 hours of accrued sick leave.

Risk Management
The District is exposed to various risks of loss related to tort; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; workers' compensation claims; and natural disasters. Property and casualty liabilities and workers' compensation are insured through Minnesota Counties Intergovernmental Trust. The District retains risk for the deductible portion of the insurance. The amounts of these deductibles are considered immaterial to the financial statements.

The Minnesota Counties Intergovernmental Trust is a public entity risk pool currently operated as a common risk management and insurance program for its members. The District pays an annual premium based on its annual payroll. There were no significant increases or reductions in insurance from the previous year or settlements in excess of insurance coverage for any of the past three fiscal years.

Note 2 - Detailed Notes

Capital Assets

The District uses the threshold of $500 for capitalizing assets purchased.

Unearned Revenue
Unearned revenue represents unearned advances from the Minnesota Board of Water and Soil Resources (BWSR) for administrative service grants and for the cost-share program. Revenues will be recognized when the related program expenditures are recorded. Unearned revenue for the year ended December 31, 2013, consists of the following: BWSR Cost Share Programs, $315; Temporary Position Grant, $35,208; Total, $35,523.

Long-Term Liabilities - Compensated Absences Payable
Changes in long-term liabilities for the period ended December 31, 2013 are:

</tbody>
</table>

Deposits
Minnesota Statutes 118A.02 and 118A.04 authorize the District to designate a depository for public funds and to invest in certificates of deposit. Minnesota Statute 118A.03 requires that all District deposits be protected by insurance, surety bond, or collateral. The market value of collateral pledged shall be at least ten percent more than the amount on deposit plus accrued interest at the close of the financial institution's banking day, not covered by insurance or bonds.
Authorized collateral includes treasury bills, notes and bonds; issues of U.S. government agencies; general obligations rated "A" or better; revenue obligations rated "AA" or better; irrevocable standard letters of credit issued by the Federal Home Loan Bank; and certificates of deposit. Minnesota Statutes require that securities pledged as collateral be held in safekeeping in a restricted account at the Federal Reserve Bank or in an account at a trust department of a commercial bank or other financial institution that is not owned or controlled by the financial institution furnishing the collateral.

**Custodial Credit Risk Deposits**
Custodial credit risk is the risk that in the event of a financial institution failure, the District’s deposits may not be returned to it. The District does not have a deposit policy for custodial credit risk. As of December 31, 2013, the District’s deposits were not exposed to custodial credit risk.

**Note 3 - Defined Benefit Pension Plans – Statewide**

**Plan Description - Public Employees Retirement Association**
The District contributes to a cost-sharing multiple-employer defined pension plan administered by the Public Employees Retirement Association of Minnesota (PERA). The PERA provides retirement benefits as well as disability to members, and benefits to survivors upon death of eligible members. The plan and its benefits are established and administered in accordance with Minnesota Statutes Chapters 353 and 356. PERA issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the Public Employees Retirement Association, 60 Empire Drive, Suite 200, St. Paul, Minnesota, 55103-1855.

**Funding Policy**
Minnesota Statute Chapter 353 sets the rates for employer and employee contributions. These statutes are established and amended by the state legislature. The District makes annual contributions to the pension plans equal to the amount required by state statutes. Coordinated Plan Members were required to contribute 6.25% of their annual covered salary. The District is required to contribute 7.25% of annual covered payroll. The District’s contributions to the Public Employees Retirement Fund for the years ending December 31, 2013, 2012 and 2011 were $9,866, $9,935, and $7,020 respectively. The District’s contributions were equal to the contractually required contributions for each year as set by Minnesota Statutes.

**Note 4 - Stewardship, Compliance and Accountability**
Excess of expenditures over budget – The general fund had expenditures in excess of budget for the year as follows: Expenditures $236,731; Budget $188,995; Excess $47,736.

**Note 5 - Operating Leases**
The District leases office space on a yearly basis. Under the current agreement, total costs for 2013 were $9,313.
Note 6 - Reconciliation of Fund Balance to Net Position

Governmental Fund Balance, January 1 $146,970
Plus: Excess of Revenue Over Expenditures 13,572
Governmental Fund Balance, December 31 $160,542

Adjustments from Fund Balance to Net Position:
Less: Long-Term Liabilities $(10,061)
Net Position $150,481

Note 7 - Reconciliation of Change in Fund Balance to Change in Net Position

Change in fund balance $13,572

In the statement of activities certain operating expenses including compensated absences are measured by the amounts earned. 6,669

Net change in net position $20,241
MINNESOTA LEGAL COMPLIANCE REPORT

Board of Supervisors
Dodge Soil and Water Conservation District
Dodge Center, Minnesota

We have audited, in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States the financial statements of Dodge Soil and Water Conservation District of Dodge Center, Minnesota, as of and for the year ended December 31, 2013, and the related notes to the financial statements, and have issued our report thereon dated September 25, 2014.

The Minnesota Legal Compliance Audit Guide for Political Subdivisions, promulgated by the State Auditor pursuant to Minnesota Statute 6.65, contains six categories of compliance to be tested: contracting and bidding, deposits and investments, conflicts of interest, public indebtedness, claims and disbursements, and miscellaneous provisions. Our audit considered all of the listed categories, except that we did not test for compliance with the provisions for public indebtedness because the District is not allowed to issue debt.

In connection with our audit, nothing came to our attention that caused us to believe that the Dodge Soil and Water Conservation District failed to comply with the provisions of the Minnesota Legal Compliance Audit Guide for Political Subdivisions. However, our audit was not directed primarily toward obtaining the knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the Dodge Soil and Water Conservation District's noncompliance with the above referenced provisions.

The purpose of this report is solely to describe the scope of our testing of compliance and the results of that testing, and not to provide an opinion on compliance. Accordingly, this communication is not suitable for any other purpose.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Supervisors
Dodge Soil and Water Conservation District
Dodge Center, Minnesota

We have audited, in accordance with the auditing standards generally accepted in the
United States of America and the standards applicable to financial audits contained in
Government Auditing Standards issued by the Comptroller General of the United States, the
financial statements of the governmental activities of Dodge Soil and Water Conservation
District, Dodge Center, Minnesota, as of and for the year ended December 31, 2013, and
the related notes to the financial statements, which collectively comprise Dodge Soil and
Water Conservation District's basic financial statements, and have issued our report thereon
dated September 25, 2014.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Dodge Soil
and Water Conservation District's internal control over financial reporting (internal control) to
determine the audit procedures that are appropriate in the circumstances for the purpose of
expressing our opinions on the financial statements, but not for the purpose of expressing
an opinion on the effectiveness of Dodge Soil and Water Conservation District's internal
control. Accordingly, we do not express an opinion on the effectiveness of Dodge Soil and
Water Conservation District's internal control.

A deficiency in internal control exists when the design or operation of a control does not
allow management or employees, in the normal course of performing their assigned
functions, to prevent, or detect and correct, misstatements on a timely basis. A material
weakness is a deficiency, or a combination of deficiencies, in internal control, such that
there is a reasonable possibility that a material misstatement of the entity's financial
statements will not be prevented, or detected and corrected on a timely basis. A significant
deficiency is a deficiency, or a combination of deficiencies, in internal control that is less
severe than a material weakness, yet important enough to merit attention by those charged
with governance.

Our consideration of internal control was for the limited purpose described in the first
paragraph of this section and was not designed to identify all deficiencies in internal control
that might be material weaknesses or, significant deficiencies. Given these limitations,
during our audit we did not identify any deficiencies in internal control that we consider to be
material weaknesses. However, material weaknesses may exist that have not been
identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Dodge Soil and Water
Conservation District's financial statements are free from material misstatement, we
performed tests of its compliance with certain provisions of laws, regulations, contracts, and
grant agreements, noncompliance with which could have a direct and material effect on the
determination of financial statement amounts. However, providing an opinion on compliance
with those provisions was not an objective of our audit, and accordingly, we do not express
such an opinion. The results of our tests disclosed no instances of noncompliance or other
matters that are required to be reported under Government Auditing Standards.

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control
and compliance and the results of that testing, and not to provide an opinion on the
effectiveness of the entity’s internal control or on compliance. This report is an integral part
of an audit performed in accordance with Government Auditing Standards in considering the
entity’s internal control and compliance. Accordingly, this communication is not suitable for
any other purpose.
